As part of the AAO's continued commitment to delivering a more purposeful and value-driven Annual Session experience, we are introducing Solution Zones throughout the meeting. These curated areas are designed to help attendees identify practical solutions to the most common clinical, operational, and business challenges they encounter in their day-to-day practices.
Solution Zone kiosks are intended to be **solution-focused rather than brand-focused**, providing attendees with an efficient way to discover products, services, and technologies that address specific practice pain points. The question/pain point is to be displayed on the backwall above the monitor.

Each kiosk includes:

- One (1) lockable storage cabinet
- One (1) monitor for the ability to connect a laptop to provide information about your product to attendees
- Company branding displayed only on the cabinet below the monitor
- Space for up to two (2) company representatives to engage with attendees at the kiosk
- Two (2) exhibitor staff badges for the duration of the conference

Companies are expected to tailor conversations and demonstrations around the designated solution topic assigned to their kiosk. Promotional activities should support the educational intent of the Solution Zone experience and remain relevant to the identified practice challenge.
