Standards Third Party Content Policy

Proper permission, licensing, and citation of third-party content is required using the following guidelines:

Limited and Essential: The use of third-party content should be limited, and only used if it is deemed essential. AMPP's strong preference is that content owned by other parties is only referenced in the document, as opposed to reproduced.

Illustrative Purposes Only: Any essential content owned by another party should be included solely for illustrative purposes. Third-party content expected to be reproduced in any manner by those using the Standard may not be included.

Written Permission: If you are using text, figures, tables, or any material from other publishers' standards, books, papers, journals, websites, etc., you must obtain written permission from the copyright holder to include them in your document. (If other AMPP content is being used, staff is available to confirm that it is original AMPP content and can be used.)

- Please use [this form](#) to obtain permission from each source of the third-party content.
- Complete the form and send it to the third party(ies). Please contact copyright@ampp.org for any of the information you cannot provide.
- When returned, submit the completed and signed form to copyright@ampp.org via email including the Standard number in the subject line and clearly identifying which figure/table/image in the standard this permission covers.

Please note that permissions can take some time to obtain. Begin this process as soon as you are aware of the third-party content to be included.
