

**AGENDA**  
**Standards Committee (SC) 14**  
**Oil and Gas - Upstream**  
**Monday, March 16<sup>th</sup>, 8:00 AM – 10 AM Central**  
**2026 Annual Conference Houston, TX**  
**Room 342AB**

**<https://us06web.zoom.us/j/84164125608?pwd=tk32TZqJJ24nSAJglVomRbh1Kia8Kz.1>**  
**Meeting ID: 841 6412 5608**  
**Passcode: 028434**

**1. Call to Order**

- 1.1 Review Safety Procedures** (face-to-face meetings only)
- 1.2 Review Disclaimers**
- 1.3 Agenda** (AMPP Rules of Order: Approval is not needed but a motion to amend may be proposed)
- 1.4 Approval of Minutes** (AMPP Rules of Order: Previously circulated minutes may be approved as Submitted / posted unless an objection is made; then an approval shall be presented in the form of a motion.)

**2. Staff Report** (5 min)

**3. General SC Updates** (5 min)

**4. DPM Reports and Status Updates** (10 min)

| Committee Code | Committee   | Document Project Manager | Last Publication Date / Status  |
|----------------|---|--------------------------|---|
| SP0387         | Metallurgical and Inspection Requirements for Cast Galvanic Anodes for Offshore Applications                      | Lenar, James             | Published on February 5, 2025<br>No further action required   |
| SP0492         | Metallurgical and Inspection Requirements for Offshore Pipeline Bracelet Anodes                                   | Shanmugam, Jeevanandam   | Draft reviewed by the DPM on 01/25/2026 based on the comments from editor; Expected to go for ballot            |
| SP21537        | Downhole Chemical Application via Capillary Tubing, Gas Lift, and Umbilical                                       | Obeyesekere, Nihal U.    | Subsequent to Editor's review and draft revision, additional clarifications were sought from DPM on 01/15/2026. |
| TR21516        | Corrosion Protection of Onshore In-field Oil and Gas Flowlines  | Bhardwaj, Anil           | Published in July, 2025;<br>No further action required  |
| SP21628        | Standard Practice for Performance Assessment of Acidizing Corrosion Inhibitors Used in the Oil and Gas Industries | Rong Wei                 | Project work Initiated in January 2026  |

**5. New Business** (20min)

**5.1 Documents in need of review/revision/reaffirmation/stabilization**

| Committee Code | Committee  | Document Project Manager | Last Publication Date | Remarks   |
|----------------|--|--------------------------|-----------------------|---|
| SP21469        | Corrosion Inhibition Selection and Management for Oil and Gas Production   | Sonke Hans               | 3/26/2021             | DPM is currently reviewing the document based on which further action will be initiated   |
| TR1D177        | Monitoring Techniques and Corrosion Control for Drill Pipe, Casing, and Other Steel Components in Contact with Drilling Fluids | Winfield, Michael S.     | 01/01/2009            | Dr Anil completed review but not in a position to come up with any new idea / proposal in view of lack of data on monitoring techniques |

## 5.2 Potential New Standards

5.2.1: Dr. Nihal Obeyesekere is in the process of coming up with a new proposal “Chemical applications via small bore tubing”

5.2.2 Other new areas:

- Potential ideas:

- Standard Practice for Developing Corrosion Loops and Integrity Operating Windows for Upstream Production Systems
- Corrosion Protection of Offshore subsea oil and Gas flowlines
- Integrity management of DSS flowlines and pipe.

## 5.3 Presentations on topics of interest to the SC

**5.3.1 Naphthenate Soap Emulsion Treatment Systems.** Presenter **Dr. Sanjay Mishra**. Chief Technology Office and Hean R&D Deleum Bhd, Malasya (25 min)

**5.3.2 Duplex Stainless Steel (DSS) Flowline integrity. Cases of studies.** Presenter. Dr. Janardhan Saithala. Blade Energy, Houston (25 min)

**5.3.3 A Comparative Study of ICDA and ILI in subsea Pipelines.** Presenter. Pedro Rincon. Principal Integrity at Shell US (25 min)

**6. Next Meeting** (2 min)

**7. Action Items** (3min)

**8. Adjournment**

## **DISCLAIMERS:**

### **AMPP Standards Copyright Acknowledgement and Intellectual Property Statement**

AMPP's Intellectual Property (IP) is:

- a valuable asset,
- considered original material,
- the sole and exclusive property of AMPP,
- protected by copyright laws.

AMPP reserves the right to copyright any of its products, databases, audio/visual products, etc. AMPP is responsible for communication, publication, and distribution to protect its intellectual property (IP) regardless of the means of distribution, whether in print, databases, electronic media, websites, or any other method. This is intended to protect AMPP from unauthorized reproduction, republication, or redistribution of AMPP IP, including altering or removing any trademark, copyright, or other notice from such material. All AMPP published IP is property owned by AMPP and shall not be used, reproduced, or distributed in full or in part without AMPP's prior express written permission.

As a participant in AMPP Standards Committees, individuals agree that the collective Work of the committee is the property of AMPP and that any content provided for and included in standards development becomes part of AMPP's copyrighted content. AMPP is charged with its publication, dissemination, and protection pursuant to U.S. Copyright Law.

AMPP and its successors, licensees, and assignees shall have the right for any purpose to publish, reproduce, republish, use, adapt, and otherwise make use of the Work through technologies now known or hereafter to become known. AMPP shall have the right to reuse the figures, photographs, tables, charts, etc. from the Work, (except third-party content) as part of other AMPP publications and products.

It is AMPP policy that the property rights of third parties shall be respected and not be infringed upon by AMPP employees, members, or other participants. Any third-party content provided for this Work requires permission for its use. Please see the following Standards Third-Party Content policy for more details.

This policy is intended to achieve the core purpose and accomplish the mission of AMPP and its members.

### **Standards Third Party Content Policy**

Proper permission, licensing, and citation of third-party content is required using the following guidelines:

**Limited and Essential:** The use of third-party content should be limited, and only used if it is deemed essential. AMPP's strong preference is that content owned by other parties is only referenced in the document, as opposed to reproduced.

**Illustrative Purposes Only:** Any essential content owned by another party should be included solely for illustrative purposes. Third-party content expected to be reproduced in any manner by those using the Standard may not be included.

**Written Permission:** If you are using text, figures, tables, or any material from other publishers' standards, books, papers, journals, websites, etc., you must obtain written permission from the copyright holder to include them in your document. (If other AMPP content is being used, staff is available to confirm that it is original AMPP content and can be used.)

- Please use [this form](#) to obtain permission from each source of the third-party content.
- Complete the form and send it to the third party(ies). Please contact [copyright@ampp.org](mailto:copyright@ampp.org) for any of the information you cannot provide.
- When returned, submit the completed and signed form to [copyright@ampp.org](mailto:copyright@ampp.org) via email including the Standard number in the subject line and clearly identifying which figure/table/image in the standard this permission covers.

Please note that permissions can take some time to obtain. Begin this process as soon as you are aware of the third-party content to be included.

### **AMPP Policies and Procedures**

SC members accept and follow the policies outlined in the AMPP and AMPP Global Center Policies and Procedures Charter (latest version) which includes but is not limited to the Code of Ethics; Antitrust and Rules of Antitrust Compliance; Conflict of Interest; Intellectual Property: Logo, Business Card, Copyright, Patent, and Trade Names.

### **Participation in AMPP Standards Committees**

SC members agree to accept and follow all procedures relating to standards development as detailed in the AMPP Standards Committees Operating Manual (latest version).

### **AMPP Standards Meetings**

Meetings of SCs shall be conducted following all applicable AMPP policies. Minutes and other business records of AMPP SCs shall not be distributed beyond the committee membership without prior approval from AMPP. **Any recording** including audio, AI notetakers, Closed Caption files, or video is not permitted.
