

# NEW ENGLAND Valve and Structural Heart FOUNDATION

**SEPTEMBER 25-26, 2026**

**Renaissance Boston Seaport Hotel • Boston, MA**

## EXHIBIT/SPONSORSHIP INFORMATION

**NEVASH is a case-based, interactive CME symposium** focused on the evolving landscape of valvular and structural heart disease. The program brings together leading experts in cardiology and cardiac surgery to provide timely updates on the optimal management of complex structural heart patients, while fostering meaningful discussion around current clinical controversies and emerging best practices.

Exhibitors will have the opportunity to engage directly with key decision-makers in a collaborative, collegial setting designed to encourage dialogue, relationship-building, and the exchange of ideas that support improved patient care and structural heart program outcomes. With access to a highly targeted audience of physicians, program leaders, and clinical stakeholders, NEVASH offers exhibitors a meaningful opportunity to strengthen brand visibility, cultivate valuable relationships, and maximize return on investment through focused, high-quality engagement.
