Baylor Scott & White Health
Temple, TX

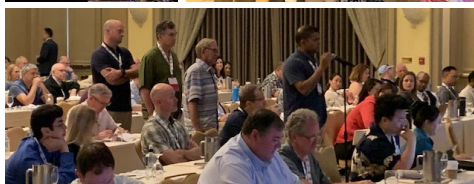

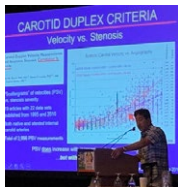

R. Eugene Zierler,
M.D., RPVI
University of Washington
Medical Center
Seattle, WA

Established in 1987, the biennial Strandness Symposium provides a comprehensive review and update on diagnostic and therapeutic approaches to vascular disease, along with valuable training and educational opportunities for attendees provided by leading experts. The symposium carries on the work of Dr. D. Eugene Strandness, "the father of the vascular laboratory," through engaging and challenging lectures, case presentations, and workshops. The Strandness Symposium's continuing medical educational activities have been designed to meet the specialized educational needs of vascular surgeons, cardiologists, radiologists, vascular medicine specialists, vascular sonographers, fellows and residents, nurses, and other allied health professionals who care for people with vascular disease or perform noninvasive diagnostic tests.

Secure your company's place among Strandness Symposium's receptive audience of regional decision makers and national opinion leaders.

DIAGNOSTIC AND THERAPEUTIC APPROACHES TO VASCULAR DISEASE

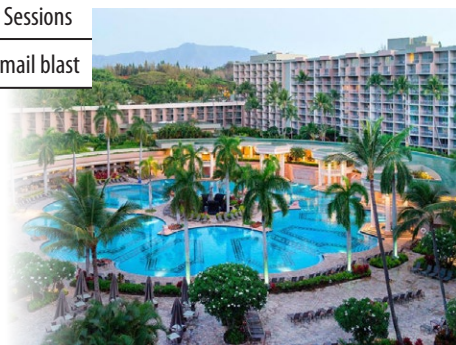

FEBRUARY 22 - 25, 2026

The Royal Sonesta Kaua'i Resort Lihue

TIERED SUPPORT OPPORTUNITIES

Strandness Symposium serves as an essential resource to meet the needs of vascular surgeons, cardiologists, radiologists, vascular medicine specialists, fellows, nurses and other allied health professionals. In 2024, Strandness Symposium will once again provide essential scientific programming, complemented by an exhibit hall showcasing the latest developments in the vascular arena. Don't miss the opportunity to reach Strandness Symposium's audience of engaged decision makers.
