Established in 1987 by Dr. D. Eugene Strandness, the “father of the vascular laboratory,” the Strandness Symposium provides a comprehensive review and update on diagnostic and therapeutic approaches to vascular disease. The symposium continues to emphasize the themes of Dr. Strandness’ life work and legacy through lectures, case presentations, and hands-on workshops taught by a faculty of expert physicians and sonographers. The Vascular Forum provides a unique learning opportunity for physicians-in-training.

**Secure your company’s place among Strandness Symposium’s receptive audience of regional decision makers and national opinion leaders.**

### TIERED SUPPORT OPPORTUNITIES

**Strandness Symposium** serves as an essential resource to meet the needs of vascular surgeons, cardiologists, radiologists, vascular medicine specialists, fellows, nurses and other allied health professionals. In 2024, Strandness Symposium will once again provide essential scientific programming, complemented by an exhibit hall showcasing the latest developments in the vascular arena. Don't miss the opportunity to reach Strandness Symposium's audience of engaged decision makers.
