Experiencing Italy with API

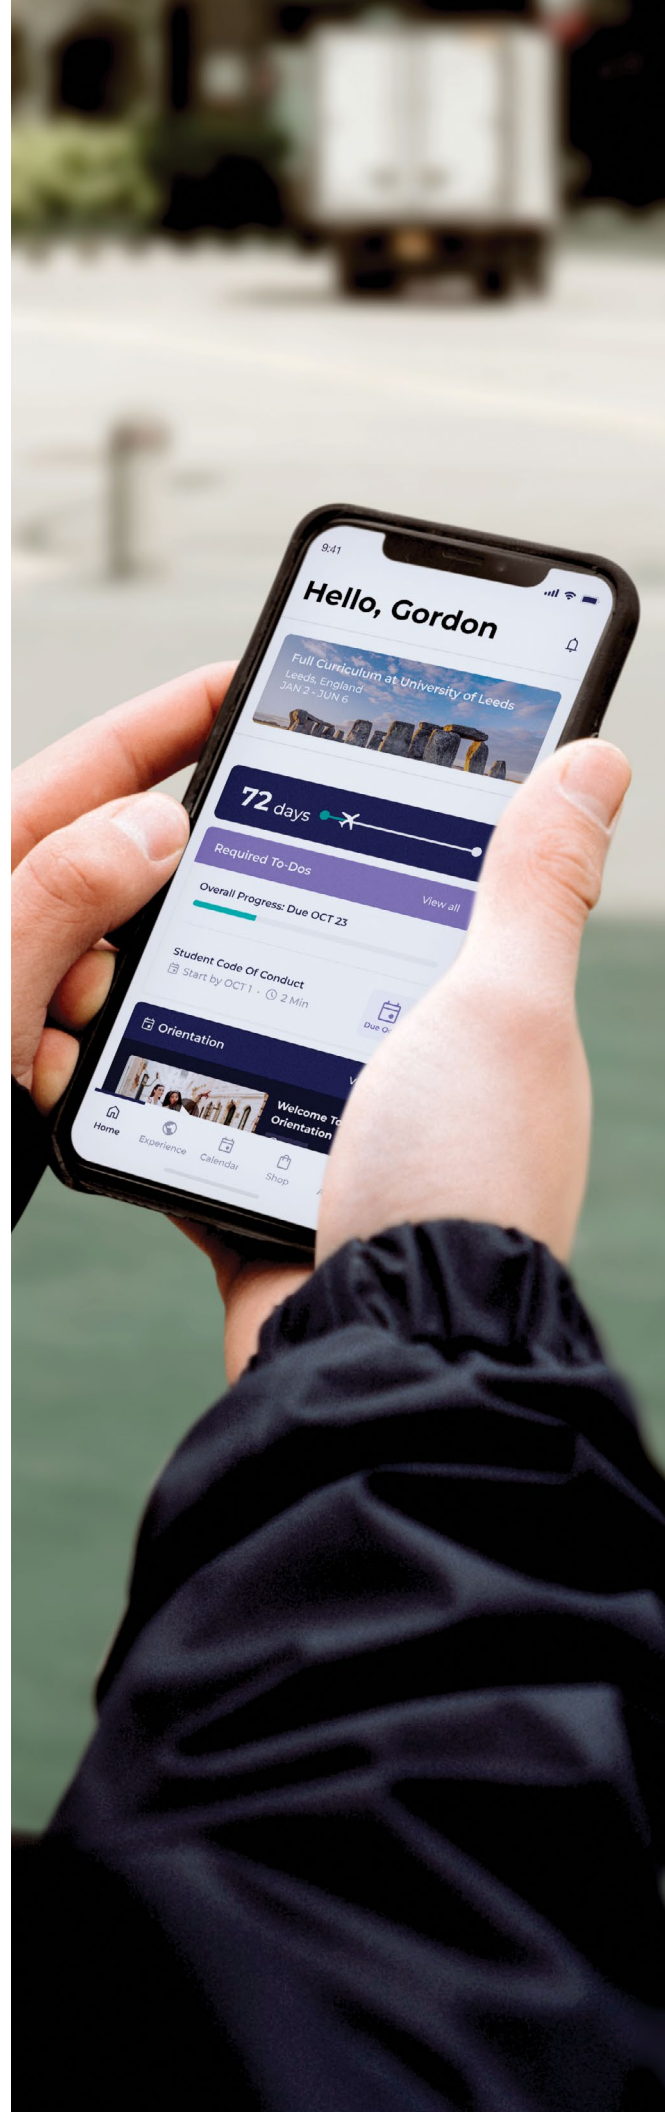

FOR UNIVERSITIES

MEMBERSHIP IS MEANINGFUL

- ✓ Leverage **APIConnect technology** to manage, control, and promote your campus-wide catalog of experiential learning programming - including non-API programs - for no cost.
- ✓ Track student interest and progress from prospect to alumni using the **Student Lifecycle dashboard**.
- ✓ Access **apps that deliver critical insights**, such as the Research app, Career and Skills app, and the Curriculum Integration app.
- ✓ Get expert help in **advising and marketing**.
- ✓ Offer housing and excursions for your exchange programs.
- ✓ Build truly **customized faculty-led programs** at the component-level or select pre-crafted options. Then, promote your programs nationwide so they meet or exceed capacity requirements every time.
- ✓ Gain access to significant **scholarship dollars** (\$7.2M in the last 2 years!).

FOR STUDENTS IT'S ALL IN THE APP

- ✓ **Easily search for and find best-fit programs** based on skills, career interest, classes needed, location desired, and more.
- ✓ **Apply for and personalize the experience** starting with the number of credits, selecting housing that has been Visited and Verified™, and adding excursions.
- ✓ **Onboard seamlessly** using the secure APIConnect mobile app to upload documents. Take advantage of our **Fare Finder™** app to book airfare that includes more perks, such as bags fly free and expanded options to change or cancel.
- ✓ **Get oriented from anywhere** using the mobile app to access materials and information where they can revisit and refresh their memory.
- ✓ **Explore with support** using the app to explore their new city, find student discounts, and leverage suggested sites by API's local team.
- ✓ Through **capstone and career readiness**, demonstrate the proficiency and preparation necessary for future success.

STUDY ABROAD

API encourages students to embark on a lifelong experiential educational journey that enriches lives, communities, and organizations. Students will attend prestigious universities across the globe, complete courses in virtually any area of study, and immerse themselves in another country's language, lifestyle, and culture. Thousands of students experience hundreds of our programs virtually and in nearly 70 cities, globally, every year.

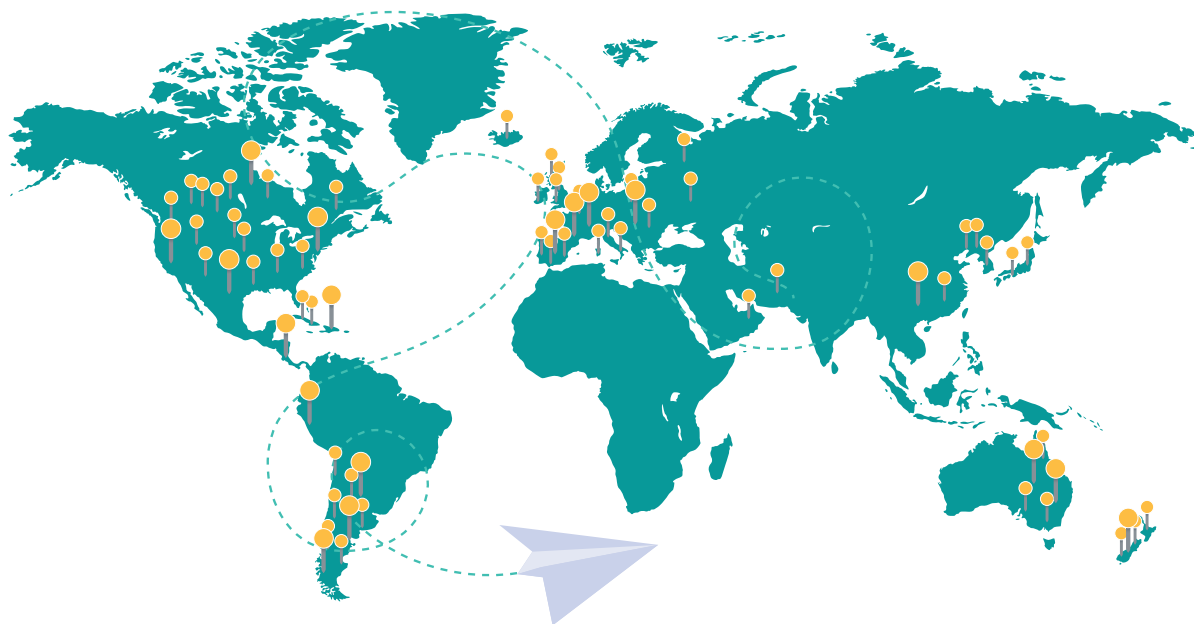

CAREER PROGRAMMING | INTERNSHIPS

Give your students the jump on their professional future through career coaching, curriculum, skills, and credentials. Our career programming - which includes API internships, as well as career curriculum you can add to any class - is designed to provide students with training and resources to prepare them for a meaningful and successful career upon graduation..

FACULTY-LED PROGRAMMING

API's Customized Program team will walk you through thematically tagged excursions, company visits, and events, as well as housing options so you can build a truly customized program that meets your budget requirements. Then, receive expert marketing support to promote your program to students across the country.
